

"As a consultant who matches business owners with intermediaries, I get to speak with and deal with a large number of brokers, M&A advisors and investment bankers. I hope that puts into context what I am about to say about Dave Kauppi. "

"MidMarket Capital are recognized experts in what they do. I have never had a client I've referred to Dave Kauppi come back with anything less than a glowing testimonial about Dave's expertise, capabilities and approach. If you're looking to sell a technology business in the US, and want to maximize your chances of sale and maximize the price you achieve, use MidMarket Capital." **Clinton Lee, Founder, UK Business Brokers.**
